Leverage the Power of Import and Export Trade Data

Descartes Datamyne™: Leverage The Power of Import & Export Data

Descartes Datamyne™ unlocks the value of trade data for business by delivering the latest available import and export information. Content is delivered in a format that makes it easy to research and analyze for unique market insights. Our trade data resources set the industry standard for accuracy, reliability and comprehensiveness.

230 MARKETS, ACROSS 5 CONTINENTS ARE INCLUDED IN OUR SOLUTION

Descartes Datamyne™ features the world's largest searchable trade database. Gathered directly from official filings with customs agencies and trade ministries, our data is detailed, timely and authoritative.

75%+ OF THE WORLD'S IMPORT-EXPORT TRADE IS COVERED BY OUR DATA

Sourced from the trading nations of the Americas, Asia, Africa and the EU, Descartes Datamyne provides the business intelligence that company's need in today's competitive marketplace.

500M+ SHIPMENT RECORDS ARE ADDED TO OUR DATABASE EACH YEAR

This includes an average of 26,000 US maritime import Bill of Lading (BOL) records added each day – 24 hours after receipt from U.S. Customs & Border Protection (CBP).

How Can Descartes Datamyne Help?

To compete successfully, companies need to keep close watch on their markets, staying alert to opportunities and risks as they emerge. Descartes Datamyne gives companies the advantage of having clear and current information about their markets at the point of business decision-making.

Descartes Datamyne makes trade data work for companies that want to gauge supply and demand for their products, find and prequalify suppliers, enhance logistics, add resilience to supply chains, uncover growing new markets, identify strategic partners, monitor competitors' cross-border activities, generate sales leads, benchmark performance and more.

Descartes Datamyne unlocks the value of trade data for business by delivering the latest available import and export information.

WHO USES DESCARTES DATAMYNE?

Industry Solutions In-Depth

DESCARTES™
Datamyne

Chemical Companies

Chemical companies map and initiate growth strategies and mitigate supply chain risks

Legal practitioners provide evidence in support of International Trade Commission (ITC) trade investigations and cases

Financial and industry analysts

Financial and industry analysts monitor commodity volumes and values, investigate inventory build-ups or cutbacks and evaluate players that stand to lose or gain, as well as Banks identify sales leads for trade finance and foreign exchange products

Datamyne's research platform provides simplified search and analysis and reveals bill of lading details, including value-added fields such as TEUs, calculated values, and unified shipper and consignee company names.

Powerful & Insightful

The intuitive interface sets the Descartes Datamyne solution apart. Our online access platform simplifies complex research and helps users access the insightful information they need, when they need it. Users can search international data, easily shifting perspectives from buy-side to sell-side, or drill down to the details of individual shipments. They can access U.S. master and house BOL information, including container and/or equipment size and type, Non-vessel Operating Common Carrier (NVOCC) or VOCC, Less Than Container (LCL) or Full Container Load (FCL) manifests, as well as enriched value-added fields, such as 20-foot Equivalent Units (TEUs) and the unified names/addresses of all parties to the shipment.

Why Is Descartes Datamyne Different?

The quality of our data drives meaningful results for business. Our passion for excellence is reflected in:

AN ISO-CERTIFIED DATA CENTER

Our data center in Montevideo, Uruguay, has been certified compliant with ISO 9001:2008 standards of quality management systems and processes for development, marketing and after sales care information tools for trade and foreign trade. Our data center ensures adherence to the highest standards for accuracy and reliability. Our clients can benefit from this standard of quality.

TIMELINESS & ACCURACY

Companies rely on Descartes Datamyne for the latest data available. For example, our most popular U.S. maritime imports are refreshed daily with bill of lading data released 24 hours after receipt from Customs, making it first to the marketplace. This is fully-processed and verified data, with variations in importers and shipper names unified against our own dictionaries and with Dun & Bradstreet. Our rigorous quality control processes help to ensure our customers are equipped to make better decisions with current and reliable information.

CUSTOMIZED RESEARCH, ON-TARGET RESULTS

Our intuitive user interface simplifies complex database research. Our online search and analysis platform speeds users to obtain the in-depth business information they need. Our trade data specialists work with companies to provide training and ongoing professional support. Our Market Insight reports enable customers to collaborate in creating their own custom, industry and region-specific research, delivered via business intelligence dashboards for fast analysis. From email alerts of inbound shipments to near real-time visualizations of market dynamics, companies choose Descartes Datamyne for ease of access to meaningful content that helps achieve results in the global marketplace.

Uniting Systems and People with Trade Information

Descartes helps maximize the value of trade data by helping organizations work smarter. Our suite of solutions helps businesses achieve higher trade compliance rates, increase insight and leverage market research, reduce the risk of transacting with denied parties, and minimize duty spend. In addition to Descartes Datamyne, our suite of global trade content solutions include:

DESCARTES™ CustomsInfo

With a vast database of data relating to regulations, rulings, duties and more, Descartes CustomsInfo™ helps clients minimize trade barriers. Options range from a web-based research solution, a powerful online, role-based interface to fueling Enterprise Resource Planning (ERP) and Global Trade Management (GTM) systems. Some of the world's largest international eCommerce sites also leverage Descartes CustomsInfo to provide customers with more accurate landed cost information, improve the online shopping experience, add to overall compliance and reduce operating costs.

DESCARTES™ Denied Party Screening

Descartes Denied Party Screening™ solution provides organizations of all sizes with easy-to-use options that quickly and efficiently screen customers, suppliers and/or trading partners against a comprehensive database of international restricted and denied party lists. Customers can tailor screening processes to fit their unique risk parameters and flag potential compliance issues for a prompt resolution. The offering also readily integrates to other systems for global trade, customer relationship.

About Descartes Systems Group

Descartes (Nasdaq:DSGX) (TSX:DSG) is the global leader in providing on-demand, software-as-a-service solutions focused on improving the productivity, performance and security of logistics-intensive businesses. Customers use our modular, software-as-a-service solutions to route, schedule, track and measure delivery resources; plan, allocate and execute shipments; rate, audit and pay transportation invoices; access global trade data; file customs and security documents for imports and exports; and complete numerous other logistics processes by participating in the world's largest, collaborative multimodal logistics community. Our headquarters are in Waterloo, Ontario, Canada and we have offices and partners around the world.
